

Stop Campus Misconduct

Before It Stops You.

WHY CHOOSE US

Ethics Suite provides ethics and compliance hotline intake and case management, GRC software solutions, and related consulting services, designed and delivered by legal, audit, and compliance professionals.

Our platform empowers institutions to detect misconduct early – protecting students, staff, and reputations.

We offer a smarter, more modern approach to addressing campus misconduct, theft, and fraud.

THE BUSINESS CASE

83.7%

Education reports primarily received by web and other channels, not by phone

#1

Employee tips are the top fraud detection method

6 in 10

The majority of instances of misconduct involve management

58%

More than half of women in academia experience sexually harassing behaviors

Frequently Asked Questions

What sets you apart from other providers?

We are independently owned and operated, with no pressure from outside investors. We offer relationship-based support and direct founder access.

How long have you been around?

Founded in 2017 by audit and compliance professionals with decades of experience, we serve a broad range of industries, including higher education and healthcare.

Do you have clients in higher education?

Yes! We support institutions with a secure and confidential platform that meets regulatory expectations, and the highest level of security requirements and accessibility standards.

How do I schedule a demo?

Email info@ethicssuite.com or use our booking link. A typical demo runs about 30 minutes, and you're welcome to schedule as many as you'd like for different stakeholders.

Am I paying too much for my current provider?

Probably. Our pricing is straightforward, with no hidden fees, inflated renewals, or user limits, aligned to your reporter population.

Is switching providers difficult?

Not at all. We help integrate your historical data and guide you through a smooth transition. As needed, we're glad to participate in an RFP or RFQ process.

ADDITIONAL SERVICES

- + Ethics Suite professionals are available for additional support, including report triage, investigations, audits, and remediation counseling.
- + Additional services include compliance program formation, audits, due diligence, policy development, training, and forensic audits.
